MEMORANDUM FOR: Chief, Defensive Systems Division, OSI

ATTENTION: [REDACTED]

FROM: Chief, CIA/PID (NPIC)

SUBJECT: Search for BUDQ-Type Radars at Various Locations in China

REFERENCES: (a) Requirement OSI/R-178/63
(b) CIA/PID Project C 624-63

1. This memorandum is in response to your requirement dated 7 May 1963 requesting a search of various locations in China for BUDQ-type radars.

2. (a) Chi-Mo (36-35N 120-30E)

A search within 5 nm of this area revealed no BUDQ-type radars.

(b) Erh-Tao-Pai-Ho (42-22N 128-10E)
Jih-Chao (35-28N 119-30E)
Tun-Hun (43-22N 128-10E)
Hun-Chun (42-52N 130-23E)

There was no photo coverage for the above areas.

(c) Tsou-Chia-Tsui-Tzu (39-16N 122-17E)

[REDACTED]
an SCR-270 type radar was observed consisting of a large van and radar complex (see enlargements). The scale and quality of the film precludes identification as a BUDQ radar. The circular pattern surrounding the complex is believed to be a security fence with firing positions. The coordinates of the radar complex are 39-18N 122-12E.

(d) Hun-Chun (42-52N 130-23E)

This area was 90 percent cloud covered on [REDACTED]

(e) Tien-Chia-Chen (41-05N 121-12E)

The quality of the film was too poor to allow radar identification.
